

Preserve – Protect What Exists

Every family reaches a point where they realize: *“We should really take care of this.”* Boxes in closets. Albums in basements. Important papers tucked into drawers.

Our **Preserve** tier is about protecting the collection and creating the digital foundation for a lasting family archive.

Who This Is For

- Families with physical photos and documents
- People worried about damage, loss, or time
- Anyone who wants a professional, careful starting point

What You Receive

- A personal **Archive Assessment**
- High-resolution digitization of photos and documents
- Archival master files and everyday-use copies
- Clear, consistent file naming
- Delivery on a labeled archive drive
- A structured digital foundation that can support future organization, storytelling, and intelligent search

Optional Enhancements

- Secure shared cloud access
- Light image correction (as needed)
- Priority digitization of fragile items

What Is Not included (By Design)

- Deep tagging and keywording
- Large-scale image restoration
- Narrative curation

Typical Timeline

Most Preserve projects are completed in **1–4 weeks**, depending on volume and condition.
